

## Spectra 4D

**3 days**

**During this course you will gain an understanding of**

- 4D Theory and its application in the field
- 4D preplots
- Spectra 4D functionality including configuration changes
- Line planning process for 4D surveys (feather matching)
- Acquisition of a 4D line
- One and two vessel 4D setup

**Through practical sessions you will demonstrate competence in**

- Install and check a Spectra 4D license
- Setting up 4D options in Spectra including configuration
- Recognition that 4D mode is fully active
- Correct configuration of 4D displays
- Understanding significance of 4D displays
- Understanding differences between 3D and 4D preplots
- Checking 4D preplots
- 4D line planning
- 4D steering
- Monitoring 4D performance
